

***Tchernobyl forever* : « en route » towards the success !**

Dear friends

March 19 after a final run-in, subscription *Tchernobyl forever* was set off on the website of participatory financing ULULE

It's a first for the holders of the project, *Enfants de Tchernobyl Belarus* in collaboration with *Photographisme* association.

A month ago, you received a message advertising this event.

Since then, the work has been carried on, especially with the correcting the English and Italian pages, and setting up a German page.

We are getting close to a funereal anniversary, april 26th. It will be then 28 years after the explosion of reactor n°4 of the Lenine power plant of Chernobyl. A fire followed which take ten days to be circumvented. During that time, huge amounts of radioactive products were released all-around. the population has not been protected. It is this mistake, I should say this crime that the areas affected by Chernobyl are still paying for today. The sanitary disaster is still going on, The radioactivity works without a break.

Belarus is the most affected country. It is also the poorest, hence the one we're the children suffer the most of the radioactive legacy spread on the ground, and in the organism of their parents and in their own. They are several hundreds of thousands.

The raison d'être of this fundraising operation is here : gathering funds to improve the financing of the only independent radio protection institute in the country, *BELRAD*, which receives no help whatsoever neither from the government of Belarus, nor from the international authorities; and also to widen the support to *BELRAD* thanks to the spreading of the information used for this operation and during the following humanitarian operation (sale of 3000 DVD-books and 2000 DVD **for the benefit of *BELRAD***).

The amount committed represents 50 % of the goal. It's good. Thanks to all who took part in it. They gave a burst to the movement.

Now we must work together to follow up on the success of *Tchernobyl Forever*.

To all those who did not participate yet : « ***Join us ! Its the right moment !*** ».

To all those who engaged themselves already : « ***A big thank you ! a very big thank you ! Spread the message al around, to your relatives, only our networks. warn your friends and their friends. Amplify that way the efficiency of your material contribution. For you want the success of this operation, you are waiting to receive the book-DVD*** ».

In the name of all our friends, artists, journalists, associative militants, and on the name of those who already offered their participation : « **We count on you !** »

Best regards,

Alain-Gilles-Bastide, in charge of the projet.

Yves Lenoir, President of the association *Enfants de Tchernobyl Belarus*.
